### ***REVIEW OF ONLINE SEDIMENT AND EROSION CONTROL PLAN SELF-CERTIFICATION TRAINING COURSE***

Thank you for your submittal of the Online Sediment and Erosion Control Plan Self-Certification Training Course. The final version, submitted 23 March 2018, addresses all staff comments and concerns discussed during the development of this tool.

The material covered in this course is appropriate, well-organized, and thorough. Successful completion of this course will provide the necessary training to develop and certify a sediment and erosion control plan in accordance with Waste Discharge Requirements for Growers within the Sacramento River Watershed Order R5-2014-0030-R1. Based on this, I approve the Online Sediment and Erosion Control Plan Self-Certification Training Course.

We appreciate the effort that the Coalition and its consultants have put into developing this tool. If you have any questions regarding this review, please contact Rebecca Tabor at (530) 226-3458 or by email at [Rebecca.Tabor@waterboards.ca.gov](mailto:Rebecca.Tabor@waterboards.ca.gov).

Sincerely,
